Product Name	Qwik Prep	Qwik Prep Plus	Smooth Wall	MPI #50
Product Number	280-0-17	235-0-17	291-0-17	296-0-17
Vehicle Type	Vinyl Acrylic	Vinyl Acrylic	Vinyl Acrylic	Poly Vinyl Acetate
Exposure	Interior	Interior	Interior	Interior
Recommended Substrates	Properly prepared interior walls and ceilings*	Properly prepared interior walls and ceilings*	Properly prepared interior walls and ceilings*	Properly prepared interior walls and ceilings*
Color	White/Tintable	White/Tintable	White/Tintable	White/Tintable
Sizes	5 Gallon, 55 Gallon Drums, 275 Gallon Totes	5 Gallon, 55 Gallon Drums, 275 Gallon Totes	5 Gallon	5 Gallon
Performance Features	<ul style="list-style-type: none"> Fast Drying Excellent Hide Minimized "Joint Banding" and "Photographing" Non-Abrasive Equipment Friendly Product VOC Emissions Compliant 	<ul style="list-style-type: none"> Hi-Build PVA Primer Replaces Traditional Skim Coat to Achieve a Level 5 Finish Exceptional Hold Out Water Clean-Up VOC Emissions Compliant 	<ul style="list-style-type: none"> Extreme Hi-Build Formula Production Spray Application Replaces Traditional Skim Coat to Achieve a Level 5 Finish Minimizes Labor Intensive Sanding Water Clean-Up VOC Emissions Compliant 	<ul style="list-style-type: none"> High-quality Primer/Sealer Promotes uniform appearance of topcoats Non-abrasive equipment-friendly product Excellent hold out when higher sheen topcoats are specified VOC Emissions Compliant
Product Description	Acrylitex Qwik Prep is a fast drying primer designed to equalize the porosity differences between the drywall face paper and joint compound in new drywall construction. Qwik Prep has excellent hide and very white in color so you can easily see your pattern when spraying texture. It provides a uniform surface that minimizes "Joint Banding" and "Photographing" of the finish coat.	Acrylitex Qwik Prep Plus is a high quality PVA product that may be applied in a spray or roll-on application to achieve a level 5 finish. It takes a level 4 finish to a level 5 without the need to skim coat by hand eliminating the intensive labor required with the traditional method. This product may be sanded and has exceptional hide. Acrylitex Qwik Prep Plus seals the porosity differences between the joint compound and the face paper providing a uniform surface that minimizes "Joint Banding" and "Photographing" of the finish coat.	Acrylitex Smooth Wall is a hi-build PVA applied in a production spray application to create a smooth wall finish. Smooth Wall eliminates the need to skim coat, sand and prime the entire surface. Applying Acrylitex Smooth Wall in an easy one-step spray application takes a level 4 finish to a level 5 with little or no sanding. Acrylitex Smooth Wall is a hi-build PVA primer that provides a sealed uniform surface for the finish coat.	Acrylitex® MPI 50 Primer/Sealer is a high quality PVA primer intended for use on new interior wallboard, plaster, and concrete. It has exceptional enamel holdout properties, making it a great undercoat for a finish of any gloss level. MPI #50 / GPS-1, GPS-2

Product Name	Prokote	Vapor Prime	Vapor Kote
Product Number	295-0-17	293-0-17	283-0-17
Vehicle Type	Acrylic	Poly Vinyl Acetate	Poly Vinyl Acetate
Exposure	Interior	Interior	Interior
Recommended Substrates	Properly prepared interior walls and ceilings*	Properly prepared interior walls and ceilings*	Properly prepared interior walls and ceilings*
Color	White/Tintable to Off White and Mid-Tone Colors	White	White
Sizes	5 Gallon	5 Gallon, 55 Gallon Drums, 275 Gallon Totes	5 Gallon, 55 Gallon Drums, 275 Gallon Totes
Performance Features	<ul style="list-style-type: none"> Mildew Resistant Coating Ideal for High Traffic Areas More Durable than Conventional Texture & Paint Washable Excellent Hold Out When Higher Sheen Topcoats are Specified VOC Compliant 	<ul style="list-style-type: none"> Non-Breathing Latex Primer/ Sealer High Hide For use on Interior Walls & Ceilings Seals the Wall with Perm Rating of Less Than 1.0 at 2 mils VOC Compliant 	<ul style="list-style-type: none"> Water based, latex primer Use on interior walls and ceilings Seals the wall with perm rating of 2.0 at 2.5 mils DFT VOC Compliant Excellent Holdout Suitable as a primer for commercial vinyl wallcoverings
Product Description	Acrylitex ProKote is a 100% acrylic texture coating. The two-coat system was formulated to go over interior drywall, plaster and cured concrete for a highly durable finish. ProKote can be used to create orange peel, splatter and knockdown textures.	Acrylitex Vapor Prime is a vapor barrier coating designed for use on interior walls. Vapor Prime is a non-breathing latex primer which seals the wall with a perm rating of less than 1.0 in one coat. Acrylitex Vapor Prime is a Low VOC product and is compatible with any waterborne latex paint coating applied for the topcoat. MPI 61 approved.	Acrylitex® VaporKote is a class III vapor barrier coating designed for use on interior walls. VaporKote is a latex primer that seals the wall with a perm rating of 2 at 2.5 mils DFT. Acrylitex® VaporKote is a Low VOC product and is compatible with any waterborne latex paint coating applied for the topcoat.

Product Name	Block Fill	Field & Orchard
Product Number	294-0-17	235-0-18
Vehicle Type	Vinyl Acrylic	Acrylic
Exposure	Interior/Exterior	Interior/Exterior
Recommended Substrates	Porus Concrete / Concrete Masonry Units	Natural Grass/Synthetic Playing Fields, Tree trunks
Color	White/Tintable to Off White and Mid-Tone Colors	White/Tintable
Sizes	5 Gallon	5 Gallon
Performance Features	<ul style="list-style-type: none"> • Interior/Exterior • Hi Build • Water Clean-up • VOC Compliant, <15 g/L 	<ul style="list-style-type: none"> • Solid Line Striping • High Opacity • Easy to Apply • Fast Drying • Non-Toxic • Low VOC
Product Description	Acrylitex Block Fill® is an excellent quality interior/exterior latex block filler intended to prime porous concrete surfaces and concrete masonry units. This one-part, water-based formulation will prime and fill surface imperfections, allowing for a more uniform topcoat application.	Acrylitex Field Marking & Orchard Paint is a high opacity vinyl acrylic product that can be used for line striping on natural grass and synthetic playing fields or to help trees resist harm from insects, disease and dehydration. Acrylitex Field Marking & Orchard Paint also helps reflect the sun's damaging UV rays. The high coverage and opacity provide solid line striping and can also be used on gravel, cinder and dirt.
